

Bush, Float

It's a beautiful world
Everyone's insane
Either you swim
Either you fade
It's revolution time
We're sleeping at the wheel
Apocalypse child
In a nuclear field
We want to change the world
But not what holds us back
I want to be for you
What I've never had
And all of this time
I was just trying to reach you

Through the rain traffic
As you float into space
Your white eyes hide your face
As you float in between
I am with you
If you leave

Fragile to the waves
Vicissitudes of days
When I am with you
I feel a little brave
The madness and the wars
The circles that we run
Confusion we import
Look what we have become
And all of this time
I was just trying to reach you

Through the rain traffic
As you float into space
Your white eyes hide your face
As you float in between
I die with you
If you leave
As you float

As you float into space
Your white eyes hide your face
As you float in between
I die with you
If you leave
As you float
I die with you
I die with you
I die with you
