C-BooL, Don't Sleep Tonight

You always liked to watch when the sun goes down You always lived living in a quiet town You always liked to run when it was getting dark And when you came back, you waited for my touch

Until now
When you feel
Insecure
But i am sure
Hold me now
Hold me tighter
Touch me more
And baby don't...

Don't sleep tonight
Even if the future looks black and whte
Hold me tight
Don't turn around
Cause tomorrow dreams may be on your side
On your side
We can run togehter
Through the stormy weather
Nothing's gonna stop uus today
Forget all your sorrows
Think about tomorrow
There will be time to celebrate

Yu never got bored whne i was next to you And when the world was lying you could find the truth You always liked to walk the empty boulevard And when you came back, you waited for my touch

Until now
When you feel
Insecure
But i am sure
Hold me now
Hold me tighter
Touch me more
And baby don't...

Don't sleep tonight
Even if the future looks black and whte
Hold me tight
Don't turn around
Cause tomorrow dreams may be on your side
On your side
Don't sleep tonight
Tonight
Tonight
Tonight
Tonight
Tonight

Don't sleep tonight Even if the future looks black and whte Hold me tight Don't turn around Cause tomorrow dreams may be on your side On your side

We can run together Nothing's gonna stop us today Forget all your sorrows Think about tomorrow There will be time to celebrate
