## C.C. Catch, Good Guys Only Win In Movies

Oh, I need you
My heart cries out: I miss you
How can you mend a broken heart?
More than ever
My heart needs you forever
How can you try a brand new start?
How can you mend my heart,
my heart, my heart?

Good guys only win in movies Million miles from nowhere My heart is crying Take care, take care Good guys only win in movies From a distant fire I'm burning in desire Higher

Friends and strangers
Don't you see the danger
Oh baby, look behind those walls
Oh, I'm falling
Don't you hear my calling
How can you try a brand new start?
How can you mend my heart,
my heart, my heart?

Come on take my heart again Come on take my love again
