

C21, Hold You Tonight

I never thought I could feel like this, no
You turn my world upside down
I never thought I could love you this way
I just want you to know

And everytime I look out my window
I wish that you would be here
Cuz everytime that I see you baby
It feels like walking on air

Cuz Ill be by your side
But I dont know if I'll be on your mind
So tell me is it right feeling blue
If youre out there
Looking for me

I wanna hold you tonight
I wanna touch you right now
Because I wanna be there when you are sleeping
And anything you say Ill do it for you
And I just wanna be there by your side
I wanna hold you tonight

I dont know where you are
Where you are now
But Ill be waiting for you

Playing tricks with my heart
Won't get me down
When I know youre around

Cuz I'll be by your side..

I wanna hold you..

If I could show you
You would know that I still care
If you still want me
You know that Ill be there

And I'll be by your side
But I dont know if Ill be on your mind
So tell me is it right feeling blue if youre out there when I want you here
