

# Cadaverous Condition, Your And My Dead Stars

I suffer under your and my dead stars  
everything I'd give you, all behind my eyes  
just call my name and I'll be with you  
I call your name and there's not much  
you would do

I suffer under your and my dead stars  
memories are wounds, they kill me every day  
all the stars shine bright tonight  
one reason to live and one to die

and never forget, the pain felt  
your and my stars are dead dead dead

again I'm waiting, once more I'm falling  
down, left behind, I'm passing time  
oh it's killing me and  
I listen to the radio as I try to sleep

I suffer under your and my dead stars  
I fall under your and my dead stars  
call my name and I'll be with you  
I die under your and my dead stars

I'll never forget the pain felt
