

# Cadence Weapon, 30 Seconds

So tell me.... why is the climate flipped?  
the truth is black and white like the 9 hole chips  
or the "no logo" logo used to buy hardcore frodolo  
now im trying to put holes in the their barcodes like promos  
should i even know why we spend?  
companies concentrate on the camps like IBM  
if you've ever seen a CEO smile, he get focused as hell  
coal burners after oil murders, ghost in the shell  
hello is yellow and red and bush is fellow in bed  
you better get the point like stelletos the head, DEAD!  
brightly map out a path that a keel a taurus  
the smoke on the water, straight outta Phillip Morris  
look at Wal-Mart, they thugged down niceness  
go in through the sweatshop, rundown the prices  
as far as wrong plans go, their a bigger public enemy  
than Flava Flav working for Monsanto

Don't spend a dime until they get the price filed  
even i'm sellin a life style, testing the cause  
freshest dipt to veteran boss  
thirty seconds gets my message across

I am man of argyle companies far from even-handed  
but I've even handed out cash for their jeans and hats  
seeming that i contradict quite slightly  
to think their wearing orange, blue and white nikes  
but does it really make a difference?  
since everyone's interest is green paper  
many companies thrive off cheap labour  
like I told this punk to watch his feet  
he said "Fuck Off!"  
told him "Nike owns Converse, you weren't safe with chucks on"  
it seems what you wear is a cotton ideology  
or homespun philosophy from growing up autonomy  
but you are not alone like the festival line-up  
claused to find the tree that they want you to climb up  
not hung-up on thrift stores but I feel a little better  
spending cheddar on a used-button upper sweater  
I won't say stop buying cause it isn't realistic  
but copp it cause you want it, make your own damn decisions

Don't spend a dime until they get the price filed  
even i'm sellin a life style, testing the cause  
freshest fit to veteran boss  
thirty seconds gets my message across

First, you are being watched and "no", I'm not fucking paranoid  
a pair a boys with pins to get locked to your latitude  
an attitude to get it real, smart with what you have to do  
before you let'em in, quite drop wit a batter you  
the game's on fist, put the names on the list  
your an actor in a play and i'm changing the script  
it's amazing to sit, perhaps you know  
magical bull gonna take you an go to true product...  
placement in your moving pictures  
hatred in your schooling system  
forsake a patron saint, the president want youth eviction  
for his own devices vicegrip griptape taperoll, roll up!  
plus are targets this way is a display  
a politrickery carry wood call it bickory  
whether red or food, they giving you wood like hickory

signing off, cadence weapon of MASS DESTRUCTION!!!

Don't spend a dime until they get the price filed  
even i'm sellin a life style, testing the cause
