

Cadet, Nobody

Bustin through the open air
Now I'm getting somewhere
I'll be on the sunny side
Nothing's gonna stop this ride
nothing's going to stop me

(Chorus)

I try and reach the clouds
They try to shoot me down
I can feel the doubt
There aint nobody taking me out

Out of breath and full of fire
But I'm on a high wire
Its just another do or die
Just another long long night

(Chorus)

There aint nobody taking me out (x3)

(Chorus)
