Cake, Up So Close

up so close - I never get to see your face microscope - I might as well be out in space up so close - I never get to see the view down your throat - I'm never sure if it's still you up your nose - down to your toes in your mouth - way down south up so close - it seems I only think of you up so close - I never see the sky so blue I only wanted to be sure that what it was was really pure I put my face down in the cake my feet were flailing in a lake

up so close - I never get to see your face microscope - I might as well be out in space up so close - I never get to see you microscope - I'm never sure if it's still you
