

# Calibretto, Hollywood Is Burning Down

Hollywood's been trying to make new friends with the aliens  
By sending them our culture and our ways of life and all of our trends  
Transmitting music and TV shows and all the cool clothes  
Hoping for approval from the aliens but nobody knows  
Oh, they're sick of our movies  
They're sick of our lies  
They're coming to see us  
Baby get ready for a big surprise  
They're bringing their weapons  
They're going to shove us around  
The robots are coming to bomb the city, destroy the town  
Hollywood is burning down
