

Calibretto, I'll Talk To You Tomorrow

I'll talk to you tomorrow
I'll show you love another time
I'll be your friend tomorrow
Even though you'll die tonight
So many people, so many hurts
But you're the one who stands out
I see your sorrow and it makes me cry
You need to know what love's about
The Maker saved me
He could save you too
I wish that I could know you
There are better days
There is some hope
You could be happy and it's true
You don't have to be sorry
You don't have to put on a show
I'll tell you of His love, but now I'm busy
So I guess you will never know
I'll talk to you tomorrow....
