

Calvin Harris, Miracle (feat. Ellie Goulding)

When you hold me
There's a place I go
It's a different high, oh no

When you touch me
I get vulnerable
In a different light, oh no

Are you too cynical
To believe in a miracle
Let you slip through my hands
But could you take a chance on me
Can you forgive it all
To believe in a miracle
Yeah I put you through hell
But I'm asking you to believe

To believe in a miracle
