Return To Send Her

(Let's Get Out Of This Country EP - 2006)

Don't disturb my bed is what I should have said  
When you kissed me my head started to sway  
I took your picture  
You bought me some literature  
Honey you make my day

I don't want to take advantage or do you any damage  
I'm not sure I can manage to stay away

We have been tender  
Don't return to send her  
The love that was coming your way  
I will defend you my friend  
I won't quietly walk away

I don't want to take advantage or do you any damage  
I'm not sure I can manage to stay away

Don't be downhearted by this thing we started  
I guess that's what I'm trying to say  
I will defend you my friend  
I won't quietly walk away
