

Camper Van Beethoven, Heart

Oh, watch what you say
You're breaking my heart
Oh, watch what you do
You're tearing me apart
I, I hear what you say
I see what you do
Please, please won't you tell me
That you will stay

When, when we first met
Well I fell for you
You, you said "But first
To me you must be true."
Well I, I kept my word
But you don't seem to care
Please, please won't you tell me
That you will stay

Oh, watch what you say
You're breaking my heart
Oh, watch what you do
You're tearing me apart
I, I hear what you say
I see what you do
I see you going
Please, please won't you tell me
That you will stay
