

# Camylio, high, high, high

I feel it in my blood  
Darling when you hold me  
I can feel the chemicals  
You took the man I was  
Burned away the broken parts  
And left the beautiful

There ain't a feeling that I would trade  
For that little smirk when you say my name

You get me high, high, high  
Oh with just your smile  
My love  
Oh my love  
You get me high, high, high  
When you're by my side  
My love  
Oh my love  
You get me

High, high, high

Told mama you're the one  
She asked me when I knew  
And I said oh right from the jump  
You're the only love I want  
Cause all I ever crave  
Is you on days when we're apart

There ain't a feeling that I would trade  
For that little smirk when you say my name

You get me high, high, high  
Oh with just your smile  
My love  
Oh my love  
You get me high, high, high  
When you're by my side  
My love  
Oh my love  
You get me

High, high, high

You get me high, high, high  
Oh with just your smile  
My love  
Oh my love  
You get me
