

Camylio, high, high, high

I feel it in my blood
Darling when you hold me
I can feel the chemicals
You took the man I was
Burned away the broken parts
And left the beautiful

There ain't a feeling that I would trade
For that little smirk when you say my name

You get me high, high, high
Oh with just your smile
My love
Oh my love
You get me high, high, high
When you're by my side
My love
Oh my love
You get me

High, high, high

Told mama you're the one
She asked me when I knew
And I said oh right from the jump
You're the only love I want
Cause all I ever crave
Is you on days when we're apart

There ain't a feeling that I would trade
For that little smirk when you say my name

You get me high, high, high
Oh with just your smile
My love
Oh my love
You get me high, high, high
When you're by my side
My love
Oh my love
You get me

High, high, high

You get me high, high, high
Oh with just your smile
My love
Oh my love
You get me
