

# Cancer Bats, Harem Of Scorpions

(feat. Tim McIlrath of Rise Against)

Starving - like a pack of wolves in the city

We'll chase our future down the barrel of a gun

To what end?

Haunted - by the siren song of the concrete

Never ending travel

One mile at a time is our lives

No more dead time

Look outside, look outside, dream me away

No more dead time

Cast aside, cast aside, throw me away

Slaughtered - countless hours in a lifetime

We'll mourn these minutes left in unmarked graves, respect paid

Charging - through the forest of steel trees and asphalt

No rest for the wicked, no breaks in the chain

Let's ride

No more dead time

Look outside, look outside, dream me away

No more dead time

Cast aside, cast aside, throw me away

The greatest thing you've ever done, is made yourself truly happy

Not doing it for anyone

It's your life to live as you choose

The greatest thing you've ever done

And the greatest thing you've ever done

Lived your life and never felt regret

Lived your life, not quitting yet

Without a set of goals, where no agenda lies

Just a followed heart and don't apologize

It's the greatest thing when you realize

Haunted - at the thought of another day wasted

When love is never lost, no matter at what cost

Get free

Starving - like a pack of wolves

We'll live our lives screaming

No more dead time
