

# Candice Alley, Dream The Day Away

You fill me up, then bring me down  
Seems I've tried to understand,  
You take a hold then you take my hand  
Pull me underground.

But I can't make up my mind  
In all the words I've tried  
Close the door and wait on something  
Like before you leave me nothing

CHORUS:

I wanna go down to the beach  
where you going?  
Take me to the place you're knowing,  
Slowly with me, dream the day away.

I want to ride on the waves that show me  
Everything I have is lonely,  
Slowly with me, dream the day away.

I've thrown away what I have used  
Nights I dream, and days I lose  
Can't walk away from what I choose  
So I call out for you.

But I can't make up my mind  
In all the words I've tried  
Close the door and wait on something  
Like before you leave me nothing

CHORUS

I call out for you,  
won't you take me to  
the place where you are going to  
Where we can dream the day away

CHORUS
