

Candlebox, Can't Give In

"She took the time, kept a run-on
She did the lines and never new 'em
Said she could but I never understand
I took the chance kept a run-on
Draw the line, I never did on
Said she could but I never understand

I can't forsake you
I can't give in
I can't forsake you
I can't give in
I can't give in to you

She rolls in town, needing nothing
She did her time, 'cause of something
She said you should, and you never understand
She took your mind, keep on swimmin'
You blow your mind, but you forgive it
Said she would and you never understand

I can't forsake you
I can't give in
I can't forsake you
I can't give in
I can't give in to you

She could take her time, and never did it
Keep your life in line, you could commit it
You should live the life I give to you
We can learn to fight, I can't believe it
Pour your heart inside, you won't believe in
What you like tonight, I'm gonna be with you
So pleased to show you'll find but can't perceive it
At least you shouldn't mind and can't believe it
What you like tonight, I'm gonna be with you
I said I'm into you
I can't give in, give in to you

She could take her time, and can't believing
At least you shouldn't mind, can't deceive it
Where you're at tonight, I'm gonna be with you
So pleased to show you'll find, can't believe it
At least you shouldn't mind, you won't believe it
Where you're at tonight, I'm gonna be with you"
