

Candlebox, What Do You Need (feat. Mona)

So tell me now what do you need
Get on up off of your knees
These games stop playing the tease
Well you're now just cutting your teeth
I'm rippin' in, watching 'em bleed

So tell me now what do you need
Spreading this like a disease
Shut your mouth ain't gotta preach
Left it all on the table so leave

And if everybody's leaving, I'll go it alone

I've been waiting
And I'm still waiting
So tell me now what do you need

Didn't think that I'd walk away
You didn't think I'd hear what you say
My whole life all night and day
You kept taking, what do you need

Here I am now talking to you
Here I am now nothing to prove
There I went, I'm done, I'm through
So tell me now what do you need

And if everybody's leaving, I'll go it alone

I've been waiting
And I'm still waiting
I been waiting
And I'm still waiting

(Instrumental)

I'll go it alone

I've been waiting (tell me now what do you-)
And I'm still waiting (I'll just go it alone)
I'm still waiting (I'll just go it alone)
And I'm still waiting

So tell me now what do you need
So tell me now what do you need
So tell me now, tell me now, what do you need

I've been waiting (okay, okay, come on, come on)
I'm still waiting (so tell me now, tell me now)
I've been waiting (so tell me now, oh)
I'm still waiting (oh, I'm still waiting)
So tell me now what do you need
