Approximately fifty years ago, under the direction of President Harry Truman, and in the interest of

The Grand Deception.

Yo

Sometimes the road to the truth is, so elusive

It's confusing, and reality becomes illusion

If I showed the masses where we was at, or where we was going

I'd shatter the social balance of the world, as we know it

I'm talking about the grand deception, of nineteen, forty seven

When our souls, were sold to the heavens

For technologically advanced weapons

Crystal enhance, brain implants, and mind-control methods

M, J, twelve is not majestic

And the focal point of our problems on this planet are not domestic

You can accept it, or be stupid and be a sceptic

I've failed to recognize the secret society's death wish

Ninety-seven percent of our Presidents were Masons

Responsible for laundering trillions of dollars from the nation

For the construction of underground military installations

Abductions and cattle mutilations

Experiments on human patients

Can take place in several subterranean bases

A hundred and fifty stories below a basement

With knowledge of genetic information, you need to fear science, not Satan

'Cause through the manipulation of certain biological agents

They create strange creations

Top secret special operations

Low frequency sounds and lasers, people like Carl Sagan

That didn't believe in the Drake equation

Were trying to keep Western civilization on the need-to-know basis

Well you need to know that this is a game

and we're being betrayed and played in the worst way

Yo

Let me explain the true essence, of the collective

And the Sumerian, text hidden message

Genesis one, twenty-six

"Let us make man in our image under our likeness"

First of all who's they? You see if God

was truly a single entity that's not what he would say

We as the Elohim, Gods and Goddesses

Possess a marvellously monstrous subconscious

Life forms that speak, in very high pitched sounds and squeaks

Short staccato clicks and beeps

A highly advanced form of speech

Even though to us it seems like their only chattering they teeth

They used to swim deep in the oceans beneath

'Till their fins transformed into limbs, and they started to creep

Then they evolved into mammals with feet

And walked right from the shorelines onto the beach

They used gravity, cause it's actually the only force around

That could slow time and the speed of light down

The energy grid network, opened the gateway from Earth

To any point in the universe  
Living organisms and various  
Geomagnetic gravitational, anomaly areas  
Space expedition teams in the lunar region  
Reported seeing, Giza pyramids and tetrahedron  
Liquid filled shoes, is what they used  
To walk across the moon without leaving a clue  
Of where they been for the past twenty-three billion years  
Before life on the surface even appeared  
I hope you've become aware what I'm spitting in your ear  
Was intended to stimulate your left-brain's hemisphere  
I know it sounds weird, all these mother fucking answers  
And questions to the grand deception //
