

# Cannibal Corpse, Demon's Night

[Originally performed by Accept]

Sparks - the eyes of fire  
Flying high in the night  
Storms - the arms of evil  
It's gonna take your life

You know the bats crying  
Hell bent for the death  
Rain - the tears of the devil  
Gonna lay you to rest

Rolling a thunder - a curse on that night  
We've got your number - no use to hide

You - you've lost your freedom  
To the masters of force  
Ride on the waves of magic  
Dark nights will be your course

Rolling a thunder - a curse on that night  
We've got your number - no use to hide

Demon's night - no way out  
Demon's night - the angels fight  
Demon's night - cries of pain  
Demon's night  
Demon's night - a night to die

Lights - blinding your mind  
Like a flash out of hell  
Sounds - that no one will hear  
It's a demon's bell

Look in the face of horror  
It's a dangerous night  
Scream for your mother's children  
You've lost your human right

Rolling a thunder - a curse on that night  
We've got your number - no use to hide

Demon's night - no way out  
Demon's night - the angels fight  
Demon's night - cries of pain  
Demon's night  
Demon's night - a night to die

Rolling a thunder - a curse on that night  
We've got your number - no use to hide

Demon's night - no way out  
Demon's night - the angels fight  
Demon's night - cries of pain  
Demon's night  
A night to die
