

# Cannibal Corpse, Evisceration Plague

Experimental pathogens, a devil's design  
The dark side of science breeds a weapon of war  
Contagious killing and internal distress  
Homicide or suicide will be the cause of death

Internal organs altered by the disease  
Your brain disabled by the constant pain  
Erratic actions lead my thoughts to the blade  
I've lost control, I've lost control

Beg for your life, you won't escape the knife  
Your fate was sealed today  
Disease has spread, you pray for death  
Evisceration plague

Stabbing compulsion overwhelms my mind  
Terrorized screaming follows the thrust of my knife  
I wrench the blade from the chest to the crotch  
Organs and entrails fall to the ground

Beg for your life, you won't escape the knife  
Your fate was sealed today  
Disease has spread, you pray for death  
Evisceration plague

Driven to kill, this is not my will  
I am compelled to slay  
Invisible foe takes control  
Evisceration plague

Unable to be seen but with visible effect  
Virulent disease causing outbreaks of violence  
They tear themselves apart, offal covers the ground  
Viscera torn forcefully from the abdomen

Intestines slick with blood cannot escape my grip  
Surgical incisions give way to frenzied carving  
Delirium has taken hold, disembowelment is complete  
Horror grips my mind, my entrails are in my hands  
My entrails are in my hands  
My entrails are in my hands...  
Plague leads to death  
Plague leads to death  
Plague leads to death  
Plague leads to death

[Solo - O'Brien]

Disease will spread and cover the world  
Mass insanity, the end of our time  
Scavengers will eat the remains of man  
Our extinction was by our design

Beg for your life, you won't escape the knife  
Your fate was sealed today  
Disease has spread, you pray for death  
Evisceration plague

Driven to kill, this is not my will  
I am compelled to slay  
Invisible foe takes control  
Evisceration plague
