Cannibal Corpse, Festering In The Crypt

Eyes tied tight forever Mouth wired shut forever Body parts dissever. You will see no more Never....

Lowerd into the ground You will never hear another sound In your coffin you are bound. Underground Forever

To the earth you're now enslaved, to the creatures long depraved Flesh has now turned to grey, as the larve gnaw away As you rott in your smallish tomb, insects care not how you met your doom In your casket eternally lie. Many were pleased to see you die

Fester In the Crypt where You lie

Victims
Pass by
They watched
You die

Flesh melts off your frame. Infamous was your name Years passed since you moved on Nothing left buy carrion
