

Cannibal Corpse, Rotting Head

A quivering pile of useless flesh, locked in a padded cell
Hidden of the prying eyes' curiosity
experimental surgery made him what he is today
His head is rotting but his body lives on as a worthless vegetable
Unknown to mankind, the incredible power of his mind

Hideous heredity, genetic imbalance, resorting to cannibalism
A feast begins as the patients skull is cracked open like a walnut
Brains devoured in a frenzied slaughter, thirst for gore nothing more
Bile is dripping, puss from wounds, as the coroner drinks it down

The sights before your eyes you can't describe
A trip through this living hell will rot away your skull

Genital laceration, anal asphyxiation
Blockage of bowel passage, defecation, haemorrhage
Cadaverous mutilation, metamorphical radiation
Devourance of arteries, decapitated extremities
Cranial excavation, cerebral liquidation
Brain turned to soup, ears are dripping goop

Slimy, cozing, dripping puss, torn out
Fingernails starting to fuss
Shredded cartilage victim lies
Eyes sockets, but no eyes
Miles of intestines strewn all about,
Facial features strickened with gout
Hanging bodies dripping with blood
The blackned fluid sinks in the mud

A quivering pile of useless flesh, locked in a padded cell
