

Cannibal Corpse, Unburied Horror

Not a drop of blood
No sign of life left in me
My heart beats no more
Someone please bury me
I can feel my own body rotten
Arteries harden, as my broken limbs stiffen
No life after death
I can feel my own self decay
Inhibit immortal, alive in me* (I don't think that's right, but I couldn't get what it was)
This vision of terror, I start to dream
I cannot wait for this, altered state
Stiffened body cold, decomposing
Bury my body, cover my rotting flesh

Incubate in the grave
To live again, burial
Funeral rites should be given to me
New life from my death
Memories of a past life, haunt me
I cannot forget
My life renewed
Only to die again and live
Murder over and over

Not a drop of blood
No sign of life left in me
My heart beats no more
Someone please bury me
I can feel my own body rotten
Arteries harden, my broken limbs stiffen
No life after death
I can feel my own self decay
