

# Cannibal Corpse, Unite The Dead

[music: Owen, Webster]

[lyrics, vocal patterns: Webster]

Her flesh decaying she rises to see  
Lecherous ghouls with rotting erections  
Her breasts are lactating blood and pus  
An orgy of death, cadavers of lust

Gray skinned bodies pulsate as one  
Grasping her flesh, erotic undead  
Maggots crawl on their rotting cocks  
Into her cunt, rigid like rock

Fucking the zombie whore  
Unite the dead  
Fucking the zombie whore  
Fornicate

Breeding the damned  
Carcasses writhe  
Revel in death

Bleeding and sore  
Insatiable corpse  
Consummate the bonds of death

Beautiful eyes are now vacant pits  
Her body contorts, her vagina has fangs  
Purtid fluids will mix in her loins  
The seed of the undead will grow inside

Hiding from mankind the embryo grows  
Nourished by flesh the mother consumes  
After the birth the child will grow  
Prince of the dead conceived by profanity

Fucking the zombie whore  
Unite the dead  
Fucking the zombie whore  
Fornicate

Gifted with speech  
The offspring will lead  
Establish their reign

Lusting for flesh  
But living, not dead  
The corpses will rape  
Rape!

Lascivious legions of blasphemous ghouls  
Kill to create whore of their own

Lust of the dead will multiply  
Thousands of corpses beginning to rise  
Living again for rape and destruction  
Ejaculate bile from their erections

Lascivious legions of blasphemous ghouls  
Kill to create whore of their own

[Solo - Owen]

Kingdom of rot the Bastard will rule

Stinking of death, zombies will roam  
Through the whore the world was crushed  
An orgy of death, cadavers of lust

Licentious masses rejoicing in sin  
Larva faced sluts fucking the ghouls  
The rancid bodies will copulate  
Their barren world they repopulate

Fucking the zombie whore  
Unite the dead  
Fucking the zombie whore  
Fornicate
