

# Cantatonia, Strange Glue

It was strange glue that held us together  
While we both came apart at the seams  
She said your place or mine while we've still got the time  
So I played along with her scheme

But I don't have the right to be with you tonight  
So please leave me alone with no saviour in sight  
I will sleep safe and sound with nobody around me

When faced with my demons  
I clothe them and feed them  
And I'll smile, yes I'll smile  
As they're taking me over

And if I cannot sleep for the secrets I keep  
It's the price I'm willing to meet

The end of the night never comes too quickly for me

But I don't have the right to be with you tonight  
So please leave me alone with no saviour in sight  
I will sleep safe and sound with nobody around me

When faced with my demons  
I clothe them and feed them  
And I'll smile, yes I'll smile  
As they're taking me over

And if I cannot sleep for the secrets I keep  
It's the prize I'm willing to see

Oh the end of the night never comes too quickly for me  
Oh the end of the night never comes too quickly for me
