

# Cappadonna, Do It/Push

[Intro: Cappadonna]

Six years in the game, nigga, I ain't changed a bit  
Get with is, get up, yeah, come on  
Do it, club drinkin' tonight, push, yeah

[Cappadonna]

My whole quick off the hook, catch us live at a theater  
Chicks start doin' they thing, you gotta hear us  
We always in effect, man, police don't scare us  
We smoke weed in the clubs, drinkin' a little beer-a  
Post up love, honeys in the mirror  
Turn the mics up so they can hear a little clearer  
Real niggaz and fly honies is in the area  
Vibe with me, come on, stride with me  
And when you start feelin' this shit, just slide with me  
Lay back on this, come on, glide with me

[Chorus: Cappadonna]

Do it, push..  
Do it, do it, do it

[Cappadonna]

Aiyo, whose the illest rappers, I don't really give a shit  
All I wanna hear is one of ya'll niggaz spit  
We at the livest event, and to get in this bitch  
Some niggaz pay 20 cent, man, make it happen  
Come on, all of ya'll niggaz on the left start clappin'  
All of ya'll honey's on the right start clappin'  
All in together now, get ready for the rappin' (come on, do it..)  
Me and my click came over for some action  
Sippin' on Hen dog, everybody maxin'  
Next thing you know, these niggaz start yappin'  
Heads was gettin' flown, jaws started crackin'  
But then shit calm down, everything was chill  
Stupid muthafuckas wanna test our skill  
Ok, back to the beat, now, how it feel?

[Chorus]

[Cappadonna]

Ladies love how it's goin' down  
Cuz we always show 'em love, everytime that we come around  
And niggaz like how we doin' shit  
It's just a couple muthafuckas wanna ruin the shit  
You little thugs can't wait for the tunes to hit  
Niggaz is wildin' out, racoons'll spit  
We at the spot where the willies at, spendin' their chips  
And them ghetto glamorous chicks be swingin' they hips  
Niggaz best to believe, we like it just like that  
All love in the fiesta, no kinds of crack  
Everybody is fancy, see the jewels is fat  
Come on ya'll, fuck with this, nigga, where you at?

[Chorus to end]
