

Cappella, Enough Is Enough

You are the one
You, you are the one
Who put this rhythm in my head

Enough is enough, make it right
I wanna hear the music
Enough is enough, make it right
I wanna hear the music with you

Enough is enough, enough is enough
Enough is enough, make it right
Enough is enough, enough is enough
Enough is enough, make it right

Turn it up and hear that volume high

Gotta play the dancing music tonight
Gonna feel your body move to the groove
Can't you see I'm movin' with you

You are the one who said it was no good
You are the one, my music tonite
You are the one who said it was no good
You are the one who put this rhythm in my head

Turn it up and you'll enjoy your life
Let it be another music profile
Stay with me and hear me croon
Can't you see my love is for you
