

# Captain & Tennille, Don't Forget Me

Don't forget me  
I'm hopin' that you won't forget me  
There's no doubt I blew it bad  
Gave up the best love that I ever had  
I never thought I could be so sad, 'til now

Please remember  
I'm hopin' that you will remember  
That the times we were together  
It wasn't always stormy weather  
There were even times when the sun came shinin' through

And I know we've gone to the partin' of our ways  
And I know we've said all the things that we could say  
And I know I can put myself back together again  
If the fate will let you  
But don't forget me

I'll remember  
You know that I will always remember  
And I hope you have a peaceful life  
You never had while I was your wife  
And though I know there is nothin' I can do  
I'll never forget you

And I hope you have a peaceful life  
You never had while I was your wife  
And though I know there is nothin' I can do  
I will never, I will never  
I'll never forget you

Don't forget me  
Don't forget me
