Carl Belew, Where Do I Go (When I Get To Wher

I'd like to say that I'm okay life is still worth livin'
But it's my fault that you're not here you did all the given
My memories bother me and there's no way of knowing
Where do I go when I get to where I'm going

I'm gonna try to loose myself someday close some city
Cause I keep lookin' at my past it's not very pretty
My memories bother me...
(guitar)
Well when I look back I don't see how you stood by me so long
You'd smile on me and cheer me up when everything went wrong
I lost your love it's plain to see and there's no way of knowing
Where do I go when I get to where I'm going
Where do I go when I get to where I'm going
