Carl Smith, How About You

But I take it all to Jesus how about you

How well do I remember how Jesus brought me through I walk the floor and pray a night or two I said Lord take and use me that's all that I can do And I gave my heart to Jesus how about you How about you oh how about you I hope my Saviour is your Saviour too I said Lord take and use me that's all that I can do And I gave my heart to Jesus how about you [guitar] When shadows overtake me and troubles start to brew And when I've done the best that I can do My best friends talk about me sometimes my kinfolks too But I take it all to Jesus how about you How about you oh how about you I hope my Saviour is your Saviour too My best friends talk about me sometimes my kinfolks too
