

# Carl Smith, Look What Thoughts Done To Me

I thought I knew everything I thought you'd wear my weddin' ring  
But now I see our love can't be look what thoughts done to me  
I thought I could run around and still be the one to wear the crown  
But I'm alone with memories look what thoughts done to me  
Don't let it happen to you now that you know what thoughts will do  
I thought I'd hear church bells chime thought someday that you'd be mine  
But now I see our love can't be look what thoughts done to me  
[ steel ]  
Don't let it happen to you now that you know what thoughts will do  
I learned too late what thoughts can do I thought I'd won but I lost you  
And now I live in misery look what thoughts done to me
