

# Carl Smith, Lovin' Is Livin'

Well I like kiss every mornin' a kiss every night a whole mess of hugs in between  
Cause lovin' is livin' and you ain't really livin' till you learn what lovin' can mean  
And honey baby if you doubt me just give me the chance I'll try to show you it's true  
That lovin' is livin' and sure's I'm livin' and fallin' in love with you  
A lotta folks go to movies when the work is done to see what they can see  
But when I go to movies I can have more fun stealin' kisses in the balcony  
I'm askin' you baby won't please don't you try to see it the way that I do  
And I'm hopin' and prayin' that soon you'll be sayin' that lovin' is livin' too  
[ guitar - steel ]  
I'd like to tease you and tickle you the whole day through and now's the time to start  
I'd give a gold faded nickel for kiss from you so come on baby open up your heart  
I'm askin' you baby won't please don't you try to see it the way that I do  
And I'm hopin' and prayin' that soon you'll be sayin' that lovin' is livin' too
