

# Carlene Carter, The Lucky Ones

(Carlene Carter)

We are the lucky ones, we know the truth  
Our daughters and sons just like us in our youth  
Generations before us watch over from above  
They filled us with faith and they showered us with love  
My girl's just like her mama, loves with all her heart  
And my son keeps me smilin' when life seems too hard  
We're lucky that we have their love  
'Cause some can only dream  
So I never take for granted what I know means everything  
We are the lucky ones  
We are the lucky ones  
We are the lucky ones, we know the score  
There's you and there's me and those fools at our door  
They want what we have, but they don't understand  
It's a secret that keeps us still holdin' hands  
We are the lucky ones  
We are the lucky ones  
Time keeps on tickin' while we watch the clock  
We learn from mistakes, yeah we've been around the block  
The way that this cruel world turns some upside down  
It's amazing to me that we're still hangin' 'round  
Strange as it seems  
I live my life like some sweet dream  
One day I'm flying through the air  
Next I'm danglin' by a string  
Tell me, am I walkin' on coals or treadin' on thin ice  
To have a little heaven here on earth  
Well, hell I'll pay the price  
We are the lucky ones  
We are the lucky ones
