

Carlos Santana, Let Me

Are you,
Are you people got around?

Listen,
Listen to the summer sound:
You're fine.

What you need is what you want,
What you need is what you want,
What you need is what you want.

Let me,
Let me take you by your hand
To the,
To the partner wonder dance.

What you need is what you want,
What you need is what you want,
What you need is what you want.
