

Carlos Santana, Stand Up

Love brings a change
I wanna take a chance
And let it grow
I trust my feelings
I wanna be with you
Wherever you go

Oh baby
Were more than friends
So precious it should never end
Oh baby
Cant help but win

Stand up, say it loud
What we need is a lot more love
Stand up, say it loud
What we need is a lotta good good love

Tonight is our turn
We have the opportunity
Dont be afraid
Want to make you happy
Satisfy the dreams inside our heads

Ooh daylight comes around so fast
I wanna make this evening last
Ooh baby, Ive given my best

Stand up, say it loud
What we need is a lotta love
Stand up, shout it out
What we need is a lot more love

Ooh baby, new dreams to share
And someone that will truly care
If youre lonely
I will always be there

Stand up, say it loud
What we need is a lot more love
Stand up, shout it out
What we need is a lotta good good love
