

# Carly Rae Jepsen, Now That I Found You

Waking up next to you every morning  
How did we get this far?  
It came without a warning  
And in the nighttime, you tell me your whole life  
You want me get too real but all I feel is alright

my heart's a secret  
I hink I'm coming alive  
I think I'm coming alive with you  
tell me you'll keep it  
I think I;m coming alive  
I come aliwe with you

don't give it up  
don't say it hurts  
cause here's nothing like this feeling, baby  
now that I found you  
I want it all  
no, there's nothing like this feeling, baby  
now that I found you  
now that I found you  
now that I found you

give me the words I want  
baby just say it  
you know me way too well to keep it complicated  
don't wanna hide my love  
I don't wanna waste it  
but I can't deny the moment when I taste it

my heart's a secret  
I hink I'm coming alive  
I think I'm coming alive with you  
tell me you'll keep it  
I think I;m coming alive  
I come aliwe with you

don't give it up  
don't say it hurts  
cause here's nothing like this feeling, baby  
now that I found you  
I want it all  
no, there's nothing like this feeling, baby  
now that I found you  
now that I found you  
now that I found you
