Carly Simon, Somewhere In The Night

(J. Myrow/M. Gordon)

Somewhere in the night chasing shadows around the bend Somewhere in the night chasing rainbows that have no end In the misty night, you are mine and you hold me fast But dreams have a way of calling it a day They seldom last, our dreams have past But in my lonely flight, I'll keep searching till time is through Somewhere in the night till I find you

In the misty light you are mine and you hold me fast But dreams have a way of calling it a day They seldom last, our dreams have past But in my lonely flight, I'll keep searching till time is through Somewhere in the night, till I find you
