

Carly Simon, Tonight And Forever

(Simon/Schwartz)

I've waited years
For you tonight
My faith in love has been my guiding light
I heard your voice
I read your heart
I fell in love with you though we were miles apart

tonight and forever
Tonight and forever I am yours

O sister make
My wedding bed
Tie a bunch of wild thorn branches
At the head
And scatter roses on the floor
Three bright stars shining at our door

Tonight and forever
Tonight and forever
Tonight and forever, I am yours

And a song on the wind
Rising from the sea

A fire so cold
A flame so new
No, I could never ask for more than you
The moon is high
The tide is in
Now the night is ours
Let the dance begin

Tonight and forever
Tonight and forever, I am yours
