

# Carly Simon, Waterfall

(Carly Simon)

Something's going down like a waterfall  
Some strong feeling's some old love  
I saw you and it made no sense at all  
Now I feel like there's too much caffeine in my blood

Like a waterfall goin' down  
Like a waterfall washing me down  
Spinnin' me around  
Lord, and I'm drownin'  
Like a waterfall going down  
Just like a waterfall washing me down  
Like a waterfall going down and down and down

You're an old lover making new contact  
Making those cold defenses melt  
And though lying in your arms is after the fact  
Once again I'm feeling like I've never felt

it's like a waterfall going down  
Like a waterfall washing me down  
Spinnin'me round

Lord, and I'm drowning  
Like a waterfall going down  
Just like a waterfall washing me down  
Like a waterfall going down and down and down
