

Carman, There Is A God

93 million miles from the blistering surface of the sun hangs the planet earth. A rotating sphere perfectly

The size, position and angle of the earth is a scientific phenomenon to see. A few degrees closer to the sun

Or take for example the combination of nitrogen and oxygen in the atmosphere we breathe every day

You see, the Bible says the invisible things of God are seen through His creation, to believe this is to

There is a hope, there is a light
There is an answer to all answers
There is a flame that burns in the night
And I know, I know, I know there is a God

The Scripture says the heavens declare the glory of God and the skies proclaim the work of His hands

Did you know the moon controls the tides, it's the maid that cleans the oceans. Even the waves don't

It simply boggles the mind to think that the stars will rotate with such exact precision that it's true. They

Though they silently orbit, the sun, the moon, the stars are like celestial evangelists above. Who can

For it's God who created heaven and earth and flung the stars in space and breathed in the hands of

There is a hope, there is a light
There is an answer to all answers
There is a flame that burns in the night
And I know, I know, I know there is a God

There is a God, there is a God
And I know, I know, I know there is a God
