

# Carole King, Wings Of Love

You fill me with love I can give  
You fill me with life I can live  
You fill me with song I can sing  
And truth that makes the kingdoms ring

On love's music we fly  
We soar ever-so-high  
Through clouds of harmony  
And down through the sky

We flow to a place  
Where people kiss each other's eyes  
And the sweet-sounding smell  
That looks like a Rocky Mountain spring  
Blossoming sighs

And the rainbow people build bridges of life  
That blend our hearts  
For the eternal now
