

Cartel, All The Way

One, two, three, four

I see you all the time
I see you in a video
running through my head
I hear that you're a fiend,
To love and let nobody know

Where you go
Where you go

Why didn't you come
back to me
I'll give you whatever you want
Turn around and
you will find
I needed you all the way now
If you don't mind

I never needed anything,
Anything but this tonight
I needed you to tell me
what was wrong.

Why didn't you come
back to me
I'll give you whatever you want
Turn around and

you will find
I needed you all the way now
If you don't mind

But this is just like everything
I told you he would say
Why wouldn't you just listen so
It wouldn't end up this way
It wouldn't end up this way

Why didn't you come
back to me
I'll give you whatever you want
Turn around and you will find
I needed you all the way now
If you don't mind

Now I'm seeing why
didn't you come
Back to me
I'll give you whatever you want
Turn around
If you will find
I needed you all the way now
If you don't mind

You needed me
I know you needed me
