

# Cary Brothers, Loneliest Girl In The World

You are the loneliest girl in the world  
Taking your hits as they come  
You are the loneliest girl in the world  
And tonight you'd fall for anyone

It's in the wall you fall down to bed  
It's in the way you cry when he's not looking

You are the loneliest girl in the world  
I'll watch you die a thousand times again  
You are the loneliest girl in the world  
And I just want to make it go away  
And I just want to make it go away
