

# Case, Think Of You

nooo...nooo....

you see it...no no no..no no  
listen baby

there's something crazy I'm feelin  
and I don't even know what I can do about it  
it keeps me up in the evenin  
and I just can't clear my head..of you

Baby I don't know what it is.. thats tellin me  
that nothing could be more than lovin you  
I try to get my thoughts and my feelings together  
but no matter how I try to find it, brings me back to you

(in the morning) I think of you  
(day and night) baby I think of you  
(everyday) I think of you  
(and every other day) oooh, I can too  
(when it rains) I think of you  
(when I cry) baby I think of you  
I don't understand what makes me think of you  
baby, I just do

everyday this feeling gets stronger  
not a minute or hour goes by that I'm not thinking of the  
for the very first time in my life, I feel deep inside I know the answer  
in what I feel is real

baby now I know what it is..thats been tellin me  
that nothin could be more than lovin you  
now I got my thoughts and feelings together  
see I understand the vibe I'm gettin, now I run to you

(in the morning) I think of you  
(day and night) baby I think of you  
(everyday) I think of you  
(and every other day) oooh, I can too  
(when it rains) I think of you  
(when I cry) baby I think of you  
I don't understand what makes me think of you  
baby, I just do

(in the morning) I think of you  
(day and night) baby I think of you  
(everyday) I think of you  
(and every other day) oooh, I can too  
(when it rains) I think of you  
(when I cry) baby I think of you  
I don't understand what keeps me (keeps me) thinking of you  
I do

[repeat til end]
