

Case, Think Of You

nooo...nooo....
you see it...no no no..no no
listen baby

there's something crazy I'm feelin
and I don't even know what I can do about it
it keeps me up in the evenin
and I just can't clear my head..of you

Baby I don't know what it is.. thats tellin me
that nothing could be more than lovin you
I try to get my thoughts and my feelings together
but no matter how I try to find it, brings me back to you

(in the morning) I think of you
(day and night) baby I think of you
(everyday) I think of you
(and every other day) oooh, I can too
(when it rains) I think of you
(when I cry) baby I think of you
I don't understand what makes me think of you
baby, I just do

everyday this feeling gets stronger
not a minute or hour goes by that I'm not thinking of the
for the very first time in my life, I feel deep inside I know the answer
in what I feel is real

baby now I know what it is..thats been tellin me
that nothin could be more than lovin you
now I got my thoughts and feelings together
see I understand the vibe I'm gettin, now I run to you

(in the morning) I think of you
(day and night) baby I think of you
(everyday) I think of you
(and every other day) oooh, I can too
(when it rains) I think of you
(when I cry) baby I think of you
I don't understand what makes me think of you
baby, I just do

(in the morning) I think of you
(day and night) baby I think of you
(everyday) I think of you
(and every other day) oooh, I can too
(when it rains) I think of you
(when I cry) baby I think of you
I don't understand what keeps me (keeps me) thinking of you
I do

[repeat til end]
