

Cash Cash, Break Out

Let's go
Follow me outside
And I know it won't be long 'til
I'm holding your hips tight
I know you want to
Leave 'em all behind
So let's catch a cab downtown now
And light the fire up and make it right
Cause there's nobody home tonight
Break out
And take it to the floor
So I can take you home and give you all the things
All the things we're not supposed to do
Break out
And take it to the floor
We'll finally be alone, just take me home with you tonight
Just you and I
And sing Oh oh
And sing Oh oh ohhh
All night
Let's go
Cause I'm feeling wild
And I know it won't be long 'til
I'm touching you skin soft
I know you want to
Give it up tonight
Oh no
I would never break your heart girl
Just give me one more chance to make it right
Cause there's nobody home tonight
Break out
And take it to the floor
So I can take you home and give you all the things
All the things we're not supposed to do
Break out
And take it to the floor
We'll finally be alone, just take me home with you tonight
Just you and I
And sing Oh oh
And sing Oh oh ohhh
All night
Oh oh Oh oh oh
Break out
And take it to the floor
So I can take you home and give you all the things
All the things we're not supposed to do
Break out
And take it to the floor
We'll finally be alone, just take me home with you tonight
Just you and I
We'll finally be alone
We'll finally be alone
Break out
And take it to the floor
We'll finally be alone, just take me home with you tonight
Just you and I
And sing Oh oh
And sing Oh oh ohhh
All night
