Cash Cash, Break Out

Let's go

Follow me outside

And I know it won't be long 'til

I'm holding your hips tight

I know you want to

Leave 'em all behind

So let's catch a cab downtown now

And light the fire up and make it right

Cause there's nobody home tonight

Break out

And take it to the floor

So I can take you home and give you all the things

All the things we're not supposed to do

Break out

And take it to the floor

We'll finally be alone, just take me home with you tonight

Just you and I

And sing Oh oh

And sing Oh oh ohhh

All night

Let's go

Cause I'm feeling wild

And I know it won't be long 'til

I'm touching you skin soft

I know you want to

Give it up tonight

Oh no

I would never break your heart girl

Just give me one more chance to make it right

Cause there's nobody home tonight

Break out

And take it to the floor

So I can take you home and give you all the things

All the things we're not supposed to do

Break out

And take it to the floor

We'll finally be alone, just take me home with you tonight

Just you and I

And sing Oh oh

And sing Oh oh ohhh

All night

Oh oh Oh oh oh

Break out

And take it to the floor

So I can take you home and give you all the things

All the things we're not supposed to do

Break out

And take it to the floor

We'll finally be alone, just take me home with you tonight

Just you and I

We'll finally be alone

We'll finally be alone

Break out

And take it to the floor

We'll finally be alone, just take me home with you tonight

Just you and I

And sing Oh oh

And sing Oh oh ohhh

All night
