

Cashless, What I Believe In

Don't try to put on someone else's shoes
Just because you think he never got the blues
We're all searching, yeah we're searching for the same
And we all gotta play our part in this game
We all lie, cry, kiss and gotta die
Nobody knows, cause that's life
That's what I believe in
That's what I believe
As long as my heart beats
And as long as I breath
That's what I believe
It's not the question where you start
No, it's all just matter of heart
You don't know what you got even if you got it all
And someday you will lose it, so you better learn to fall
Nobody knows, cause that's life
That's what I believe in
That's what I believe
As long as my heart beats
And as long as I breath
That's what I believe
No matter how hard it gets, no matter how heavy the load
We all gotta face it, we all gotta carry our baggage
There are good times and there are bad times
It's up to you what you make of it
Sometimes you gotta fight and sometimes
It's better to surrender
Always try to be as honest as you can be
Cause every one get's what he deserves
